

Out for Mental Health Local Liaison Position Description

[Out for Mental Health](#) is seeking LGBTQ advocates who are passionate about mental health to sign on as local liaisons with our campaign. Local liaisons will be a crucial part of the Out for Mental Health team: supporting the project's education, outreach and advocacy goals; providing feedback; and being among the first stakeholders to learn about project activities as they launch. We are looking for liaisons in all parts of California, with diverse representation from each of the Mental Health Regions: Superior Counties, Central Counties, Bay Area Counties, Southern Counties and the Los Angeles Region.

Specifically, liaisons will:

- Facilitate connections between *Out for Mental Health* and local LGBTQ stakeholders, including individuals, organizations, service providers, and other LGBTQ resources spread across the large regions;
- Advise Out for Mental Health on outreach, engagement and communications strategies that fit the unique make up of LGBTQ stakeholders within diverse regions. Offer insight into working with rural and/or urban communities, smaller versus large counties, and specific populations within their region;
- Assist with identifying potential members of an LGBTQ Mental Health Task Force, focused on making policy changes in their respective regions. Provide support in reaching out to potential task force members. Work with the *Out for Mental Health* Team to coordinate Task Force activities;
- Support *Out for Mental Health* with outreach for events in their region including Town Halls and trainings;
- Disseminate information about *Out for Mental Health* through existing local networks and channels including in person, online, and social media; and
- Support the *Out for Mental Health* team with compiling an LGBTQ mental health resource list to increase access for members of LGBTQ communities, as well as help identify any gaps in service.

We want your voice! If you are interested in making a difference for LGBTQ mental health, email [Mandy Taylor](#) to learn more about becoming an Out for Mental Health liaison.

Out for Mental Health is a program of the California LGBT Health and Human Services Network and NorCal Mental Health America and funded by Prop 63, the Mental Health Services Act.
